FREE Pattern - Amigurumi Kawaii Star Keychain

Use this little star pattern as a toy, keychain, ornament, bunting, and anything else you can think of. If you're interested in the little bear in the photo, I used this terrific free pattern: http://www.ravelry.com/patterns/library/teddybear-keychain. The one change I made was to crochet the muzzle and embroider the nose and mouth.

• Finish off and leave a long tail.

ADDING THE FACE AND STUFFING
• Add 6mm safety eyes to one star, which will be the front. Sew on a cute smile now or after you stuff it.

• Sew the front and back together, about 3/4 of the way. Stuff it as much as you like so it's flatter or puffier in the center, then sew the remaining stitches to close the opening.

• Either bury the yarn if making toy - OR - pull the remaining yarn tail through the center of the top point to create a hanging loop at the top of the keychain.
