NEEDLES AND TOOLS

- 4.00mm knitting needles OR
- 4.00mm circular needle 80 cm long

MEASUREMENTS

Size 80x 100cm

TENSION

22 sts by 29 rows over stocking stitch to 10 cm

GETTING STARTED

It is easier to knit the baby blanket back and forth on a circular needle, than on straight ones, as the weight of the blanket will then be resting in

your lap, instead of being held up by your arms and shoulders, while you are knitting.

Moss stitch: *K1, P1, rep from * until last st, K1.
Rep this row.

Please note: All pattern rows start and finish on RS.

RELIEF PATTERN FOR LETTERS

On RS work letters in PURL stitches and on WS work letters in KNIT stitches.

This will make letters stick out on RS of work and give the relief effect.

The name on blanket you will have to work out on a piece of graph paper with a diamond placed at either side of name.

WORKING PATTERN STRIPED BABY BLANKET

With Mc cast on 155 sts on size 4mm straight OR 4mm circ needles and work 14 rows in moss.st.

Change to st.st, except for 11 first and 11 last sts on row, which will cont to be worked in moss.st.

Work until 4 – 6 metres of yarn

remains, so you will begin Fair Isle pattern on RS.

Work Fair Isle pattern by following chart for stripes, cont to follow chart until end of blanket.

Design notes:

- Make all colour changes on RS of work.
- Always knit first st at colour change with both colours of yarn, to then cont with new colour only. This locks in the yarn and makes it easier to fasten later on.
- On last stripe work one row less of st.st. than on first stripe of blanket.

Change to moss.st 14 rows.

Cast off in moss.st.

MAKING UP

Fasten off all loose ends invisibly, by weaving them into the moss.st on WS of blanket not along the edges, as this will give a clumsy finish.

Entrelac Baby Car Seat Cover

A cute and cozy car seat rug knitted in entrelac with three shades of natural Tekapo wool yarn By Rose Johnston

YARN

- 1 ball 100gm each Ashford Tekapo 8 ply DK Natural Light, Medium and Dark

NEEDLES AND TOOLS

- 4.00mm knitting needles

SPECIAL ABBREVIATIONS

Kfb = Knit in the front and back of first stitch

TENSION

As for Tekapo 8ply DK

WORKING PATTERN

Pass 1 - Starting Triangles

Cast on 100 stitches.

Knit a swatch of ten blocks x 10 stitches wide.

To begin:

Purl 2, turn

Knit 2, turn

P3, turn

K3, turn

Continue this way, working one more stitch each time until you have purled 10 stitches. Do not turn.

Looking at knitting – a triangle should have been made.

Make nine more triangles in exactly the same way, ignoring the first one completely.

Design note: the second and third triangles have their tips attached to the preceding stitches. Don't worry; it's sorted on the next pass.

Pass 2 - Side Triangles and Blocks

This pass is a little different. In order to

have straight edges make half triangles each end. Attach second colour.

K2, turn

P2, turn

Kfb, S1 K1 psso, turn.

P3, turn

Kfb, K1, S1, K1 psso turn

P4, turn

Kfb, K2, S1, K1 psso turn

P5, turn

Continue until you have used all 10 stitches of the triangle below. After the (Kfb, K8, S1, K1 psso) row, omit turn. This will make first side triangle and there will be one of these half triangles at the beginning and the end of every other row.

Work should look like **Photo 1**.

Pick up 10 stitches where shown to continue making triangles. On **Photo 2**.

Turn and P10, turn

K9, S1, K1 psso turn and purl back

Continue this way until you have incorporated all 10 stitches from the first pass triangle.

This completes first block.

Pick up 10 more stitches and continue across row until final 10 stitches and proceed as follows.

P2tog, p8, turn

K9
P2tog, P7, turn
K8
Continue in this way, purling two together at the beginning of the row and having one stitch less with each dec row. When one stitch remains, turn and slip stitch onto left needle. This is what work should look like now

Photo 3.

3rd Pass - Just Blocks

Join third colour yarn. This is second row of blocks with no side triangles - just blocks.

P1
Pick up and purl 9 stitches, turn
K10, turn
P9, P2tog, turn
K10 turn
Continue like this until working all 10 stitches across the row from the block below. After the last P9, P2tog, do not turn. Pick up and purl another 10 stitches and work that block (the second one) and continue to the end of the row. See **Photo 4.**

Design note: Make a large buttonhole for the car seat strap. Buttonhole: Cast off 8st 1st row and cast 8st on 2nd row
Repeat the second and third

passes for the desired length.

Last Pass - Finishing

To end, you will need triangles and your last row of blocks needs to be a second pass row. See **Photo 5.**

With 1 stitch on the needle, P1
Pick up and purl 9 stitches along the side of the block below, turn

K10
P2tog, K7, P2 tog, turn
K9

Continue like this, purling 2 together at the beginning and the end of the row and having one less stitch on each dec. row, until you K2:

Turn and P1, P2tog, turn

K2, turn

P3tog

There is one stitch left. Pick and up purl 9 stitches as before and proceed with the second and third triangles etc. When you have 1 stitch left at the other side of the fabric, end off.

MAKING UP

Pick up stitches around the outside edges (circular needle or 1 edge at a time)

Approx 110 st on side edges and 55 st on end edges.

Knit as many rows as required remembering to increase 1 st at the corners on each row so the corners

do not pull. Cast off.
Sew corner edges together, and neaten any ends.

Using a flat seam, sew motifs together to form a piece 4 motifs wide x 5 motifs long, placing one each of Motif B at random in each row.

With right side facing, using 4.50mm hook and M, work 1 row of treble evenly around all sides, working 3 tr in each corner, slst in first st at beg. Fasten off M. With right side facing, using C2 – work another round of treble, using C1 – work one round of double crochet, then using M – work another round of treble, working 3 sts in each corner of every round to keep work flat.

Fasten off. Darn in all ends neatly on wrong side.

GETTING STARTED

Turning: Rows are not always worked from end to end. They can be stopped at any point and then turned and worked backwards.

When instructed to turn, simply turn the knitting around by swapping the needles to the other hands ready to work back in the other direction (this will be considered to be the next row). When pattern specifies turn' - proceed as follows (to avoid holes in work) -

take yarn under needle and onto other side of work, slip next st onto right hand needle, take yarn under needle and back to original position, slip st back onto left hand needle, then turn and proceed as instructed in pattern.

GLOSSARY

BEGINNER'S TOOL KIT

PINS

Plastic-head pins are useful for checking tension and blocking out items. Pins with coloured heads are best because they do not get lost in your work.

ROW COUNTER

A row counter is helpful for keeping track of rows worked, particularly where increases, decreases or other kinds of patterning occur.

KNITTING NEEDLES

Knitting needles are made from plastic, aluminium or wood and come in varying lengths and widths. Straight needles come in pairs and doublepointed needles come in sets of four.

KNITTING BAG

A knitting bag is essential for those who like to knit 'on the go'. Not only is it a practical way to keep all your knitting paraphernalia together, it also helps keep the yarn clean and tangle-free.

CIRCULAR KNITTING NEEDLES

Circular needles have two working ends joined by a thin nylon wire. They are more balanced than straight needles and allow the weight of your work to rest in your lap.

KNITTING IN ELASTIC

Elastic yarn prevents sagging in cuffs, collars and waists. You can work it in with knitting yarn on knitted or crocheted garments.

TAPE MEASURE

A basic tape measure is essential for checking your garment measurements.

KNITTER'S NEEDLES

Knitter's needles need to have a large eye and a blunt point so they do not split stitches when sewing up your knitting.

STITCH GAUGE

A stitch gauge is a flat piece of metal or plastic with a ruler marked on one side and/or a window

cut out in the centre. It allows you to mark and measure easily and accurately.

STITCH HOLDER

A stitch holder is used to secure stitches not in use. You can also use safety pins for holding a small number of stitches.

Diagram 1

Diagram 2

CASTING ON

Casting on is creating a row of loops on a knitting needle to form the base row for your knitting. One of the most popular methods of casting on is the cable cast on. Form a slipknot about 25cm away from the end of the yarn.

Place the slipknot on a knitting needle and pull gently to secure. Hold this needle in your left hand. Insert the right-hand needle through the slip knot. Pass the yarn over the point of the right-hand needle (see Diagram 1).

Pull a loop through the slip knot with the right-hand needle (see Diagram 2). Place this loop on the left-hand needle and gently pull the yarn to secure the stitch. For the remaining cast-on stitches, insert the right-hand needle between the slip knot and the first stitch on the left-hand needle. Wind the yarn around the point of the right-hand needle. Draw a loop through and place this loop on the left-hand needle. Continue in this manner until you have cast on the desired number of stitches.

KNIT STITCH

Diagram 1

Diagram 2

Once you have cast on, you then knit into the stitches you have made to form the knitted fabric. Hold the needle with the cast on stitches in your left hand, with the loose yarn at the back of your work. Insert the right-hand needle from left to right through the front of the first stitch on the left-hand needle (see Diagram 1). Wind the yarn from left to right over the point of the right-hand needle (see Diagram 2). Draw the

yarn through the stitch to form a new stitch on the right-hand needle. Slip the original stitch off the left-hand needle, keeping the new stitch on the right-hand needle. To knit a row, repeat these steps until all the stitches have been transferred from the left-hand needle to the right-hand needle. Turn your work, transferring the needle with the stitches on into your left hand to work the next row.

PURL STITCH

Diagram 1

Diagram 2

The purl stitch is basically the reverse of the knit stitch. Hold the needle with the stitches on in your left hand, with the loose yarn at the front of your work. Insert the right-hand needle from right to left into the front of the first stitch on the left-hand needle (see Diagram 1). Wind the yarn from right to left over the point of the right-hand needle (see Diagram 2). Draw the yarn through the

stitch to form a new stitch on the right-hand needle. Slip the original stitch off the left-hand needle, keeping the new stitch on the right-hand needle. To purl a row, repeat these steps until all the stitches have been transferred from the left-hand needle to the right-hand needle. Turn your work, transferring the needle with the stitches on into your left hand to work the next row.

CASTING OFF

KNITWISE

Knit two stitches. Use the point of the left-hand needle to lift the first stitch on the right-hand needle over the second, and drop it off the needle. Knit the next stitch on the left-hand needle so that there are two stitches on the right-hand needle again, and repeat. Continue in this manner until all the stitches have been worked off the left-hand needle and only one stitch remains on the right-hand needle. Cut the yarn, leaving a tail and thread the yarn through the loop and pull it firmly to fasten off.

Diagram 1

PURLWISE

Purl two stitches. Use the point of the left-hand needle to lift the first stitch on the right-hand needle over the second, and drop it off the needle. Purl the next stitch on the left-hand needle so that there are two stitches on the right-hand needle again, and repeat. Continue in this manner until all the stitches have been worked off the left-hand needle and only one stitch remains on the right-hand needle. Secure this last stitch as described in casting off knitwise.

Diagram 2

SUBSTITUTING YARNS

If you substitute or spin a yarn for a project, you can compare the weight of the yarn to the project yarn by comparing wraps per inch. Wrap your yarn around a ruler for one inch and count the number of wraps. If you have more wraps per inch than the project yarn, your yarn is too thin; if you have fewer wraps per inch than the project yarn, your yarn is too thick.

KNITTING TENSION

Checking your knitting tension, that is, the tightness or looseness of your knitting, is important. To check your tension, cast on 30 stitches using the recommended needle size. Work in the pattern until your work measures 10cm from the cast on edge then cast off. You now have a “swatch”. Measure your tension by placing a ruler over your swatch and counting the number of stitches across and rows down (including fractions of stitches and rows) in 10cm. Repeat these measurements two to three times on a different parts of the swatch to check your measurements. If you have more stitches and rows than called for in the instructions, you should use larger needles; if you have fewer, use smaller needles. Check your tension again before starting your project.

PROVISIONAL CAST ON (INVISIBLE CAST ON)

Place a loose slipknot on the needle in your right hand. Hold the waste yarn next to the slipknot and around your left thumb. Hold your working yarn over your left index finger. *Bring the needle forward under the waste yarn, over the working yarn, grab a loop of working yarn (Diagram 1), then bring the needle to the front, over both yarns, and grab a second loop (Diagram 2). Repeat from * until you have the desired number of stitches on your needle. When you're ready to work in the opposite direction, pick out the waste yarn to expose the live stitches.

Diagram 1

Diagram 2

Diagram 1

BACKSTITCH

This is the stitch most commonly used for joining knitted garments. With the right sides of your work together, pin the knitted fabric together with the edges even. The seam should be sewn one full stitch from the end of the row. One stitch should be worked over every row. Thread the yarn needle. Insert the needle through both layers and sew two stitches to the left then one stitch back to the right. Keep stitches at an even distance. Continue working from right to left in this circular motion. (Diagram 1)

TASSELS

Cut yarn twice the length of your desired tassel plus a bit extra for the knot. According to the desired thickness of the tassel, select a number of lengths of yarn. Fold the lengths of yarn in half over a crochet hook. On the wrong side, insert the crochet hook from the front to the back through the edge of the work. Grab the yarn and pull through and tighten. Trim the ends to the same length.

KNOTTED FRINGE

After working a tassel, take one half of the strands from each tassel and knot them with half the strands from the neighbouring tassel. Trim.

CROCHET CHAIN

Make a slip knot on your hook. Pass the yarn over the hook and catch it with the hook and draw it through the loop on the hook. Repeat, drawing yarn through the last loop formed.

DOUBLE CROCHET (DC) (US SINGLE CROCHET SC)

Insert the hook through the top two loops of a stitch. Pass the yarn over the hook and draw up a loop so that you have two loops on the hook (Diagram 1). Pass the yarn over the hook and draw through both loops on the hook (Diagram 2). Continue in the same way, inserting the hook into each stitch (Diagram 3).

HALF TREBLE CROCHET (HTR) (US HALF DOUBLE CROCHET HDC)

Pass the yarn over the hook. Insert the hook through the top two loops of a stitch (Diagram 1). Pass the yarn over the hook and draw up a loop so that there are three loops on the hook (Diagram 2). Draw through all three loops on the hook (Diagram 3).

TREBLE CROCHET (TR) (US DOUBLE CROCHET DC)

Diagram 1

Pass the yarn over the hook. Insert the hook through the top two loops of a stitch (Diagram 1). Pass the yarn over the hook and draw up a loop so that you have three loops on the hook (Diagram 2). Pass the yarn over the hook and draw it through the first two loops on the hook, pass the yarn over the hook and draw through the remaining two loops. Continue in the same way, inserting the hook into each stitch (Diagram 3).

**SLIP STITCH CROCHET (SL ST)**

Insert your hook into the stitch. Yarn over the hook and draw the loop through the stitch and loop onto the hook.

I-CORD

With double-pointed needles, cast on the desired number of stitches. *Without turning the needle, slide the stitches to the other end of the needle, pull the yarn around the back and knit the stitches as usual. Repeat from * until your work measures the desired length

**PICKING UP DROPPED STITCHES**

A dropped stitch can be picked up using a crochet hook and don't be put off by stitches that have unraveled several rows down into the work. To pick up knit stitches, insert the crochet hook into the dropped stitch, draw through the bar lying above the dropped stitch and pull it through the loop of the dropped stitch.
